## MOTORTECH High Performance Spark Plugs

MOTORTECH expands the line of spark plugs with the addition of the new High Performance MHP-Plugs series. Ten variations are available providing coverage for a large number of engine applications.

The J-Type design features IRIDIUM on both the center and ground electrodes providing increased spark plug life and reliable combustion. Longer spark plug life extends service intervals and reduces maintenance costs. From legacy engines to the newest high compression designs, you can rely on MOTORTECH's MHP-Plugs to provide dependable combustion to keep your engine running smooth and efficient.

MOTORTECH HIGH PERFORMANCE SPARK PLUGS

### General Features

- Hot lock technology ensures increased spark plug durability even in high compression engines
- J-type electrode design for enhanced combustion
- Provides the high voltages necessary when using powerful, high energy systems such as the MOTORTECH MIC ignition controller
- Long design insulators for best flashover protection
- Advanced spark erosion resistance
- Suppression of electromagnetic interference (EMI)
- Longer runtime means lower maintenance costs
- Ten variations to fit most engine applications

More information about new MHP-Plugs is available at [www.motortech.de/download-centere.html](http://www.motortech.de/download-centere.html) for download.
