## MOTORTECH Extended Barrel Spark Plugs For JINAN<sup>®</sup> and SHENGLI<sup>®</sup> Gas Engines

For JINAN<sup>®</sup> V16 and SHENGLI<sup>®</sup> V16 and V20 gas engines, MOTORTECH offers a special spark plug based on its XTL-PLUG design.

The J-type electrode design with IRIDIUM alloy discs on center and ground electrode provides reliable combustion and increased spark plug life and helps to reduce service costs due to less spark plug changes. The M18x1.5 thread with an extended reach of 25.4 mm (1.000 in.) perfectly fits the application.

### Features

- Integrated 7 mm spark plug lead for a direct connection to an ignition coil
- 15 in. extended barrel length
- Integrated stress resistant resistor<sup>1)</sup> suppresses electromagnetic interference (EMI)
- M18x1.5 thread size with long 25.4 mm reach
- J-type design with copper cored center and ground electrode with laser welded IRIDIUM alloy discs

More information about new XTL-PLUGS for JINAN<sup>®</sup> and SHENGLI<sup>®</sup> gas engines is available at <http://www.motortech.de/download-centere.html> for download

<sup>1)</sup> Patent No.: US9,004,929 (EP2569833, DE102010016881 pending)
