

MOTORTECH Oxygen Sensors for CATERPILLAR® G3400/ G3500 Gas Engines

MOTORTECH Oxygen Sensors – field proven product for CATERPILLAR® G3400 & G3500 Gas Engines. For several years MOTORTECH has successfully manufactured high quality replacement oxygen sensors for CATERPILLAR® lean burn engines.

Compare Quality! Compare Price!

P/N 19.60.027 – Oxygen Sensor (non shielded)

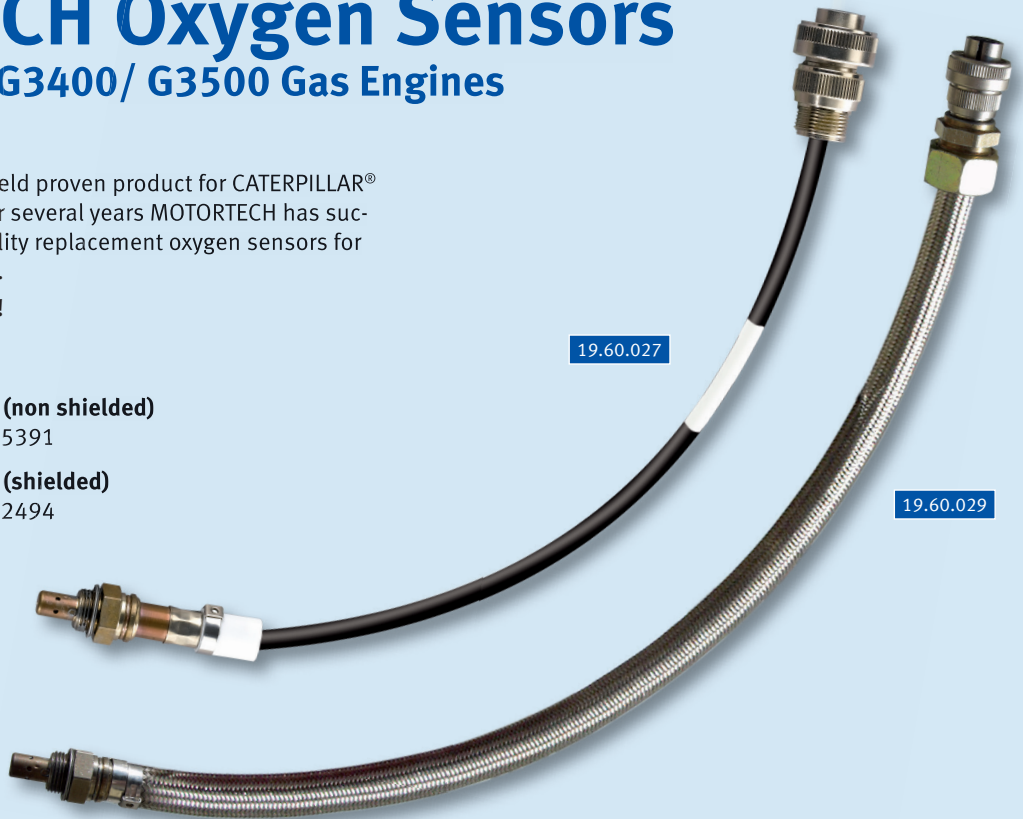

Equivalent to CATERPILLAR® 196-5391

P/N 19.60.029 – Oxygen Sensor (shielded)

Equivalent to CATERPILLAR® 141-2494

19.60.027

19.60.029

Oxygen Sensor for CATERPILLAR® G3400 / G3500 Gas Engines

P/N	Description	Connector	Length	Equivalent
19.60.027	oxygen sensor, non shielded	6 pin / 180°	250 mm	196-5391
19.60.029	oxygen sensor, shielded	6 pin / 180°	1300 mm	141-2494

Accessories for Oxygen Sensors

P/N	Description
19.60.022	heat shield
19.60.023	weld hub

Accessories for Oxygen Sensors

Heat Shield P/N 19.60.022

Weld Hub P/N 19.60.023

To increase lifetime of these critical sensors, there is a stainless steel hub available, which is welded to the exhaust pipe and takes the sensor out of the dirty exhaust gas stream. A heat shield can be screwed on top of the weld hub. This way the sensor does reach directly into the heat shield protects the sensor against transient temperature from the hot exhaust manifold.

Conversion 1 inch = 25,4 mm / 1 foot = 0,3 m
